

CHAITHANYA POREDDY

SAP BTP Solution Engineer | AI & Automation Solutions Builder

Hyderabad, Telangana, India | poreddychaithanya0310@gmail.com | +91 7702369778 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

SAP professional with **2 years of experience** in SAP Application Lifecycle Management (ALM), go-live support, hypercare, production support, release coordination, and international stakeholder collaboration across large-scale enterprise SAP programs. Passionate about SAP BTP Solution Engineering, AI-powered solutions, workflow automation, and product development.

Built practical solution prototypes including an AI-powered SAP BTP Solution Advisor, a Lifecycle Management Transformation Platform, workflow automation systems, and browser automation concepts. Strong focus on identifying business challenges, designing scalable solutions, and converting operational pain points into working products.

CORE SKILLS

SAP & Enterprise Delivery	SAP BTP & Solution Engineering	AI, Automation & Product Build
SAP ALM, SAP S/4HANA exposure, release management, PI cycles, go-live support, hypercare, production support, international delivery collaboration	SAP BTP, SAP CAP concepts, SAP Build Apps, SAP HANA Cloud, OData services, REST APIs, solution advisory, architecture thinking, business-to-technology mapping	Generative AI, prompt engineering, AI solution design, n8n, Google Apps Script, Airtable, browser automation, JavaScript, React, Vite, Tailwind CSS, GitHub, Vercel, Postman

PROFESSIONAL EXPERIENCE

Accenture — Packaged App Development Associate

SAP ALM | Enterprise Delivery | Hyderabad, India | Oct 2024 – Present

- Supported SAP ALM lifecycle activities including solution validation, deployment preparation, go-live readiness, hypercare and production support.
- Collaborated with business stakeholders, functional teams, testing teams, release teams and technical teams across international delivery environments.
- Participated in PI cycle execution, release coordination, issue resolution, transport monitoring and deployment support.
- Worked with API validation, interface troubleshooting, OAuth-based integration concepts and enterprise delivery support activities.
- Contributed to production stability during critical deployment and hypercare periods, with exposure to global rollout delivery across Europe, Japan, China and the United States.
- Recognized by leadership for contributions during major deployment and rollout activities.

Target Area	Evidence
SAP BTP Solution Engineering	SAP BTP AI Solution Advisor with recommendation, architecture guidance and implementation roadmap flow.
Automation & Process Improvement	Lifecycle Management Transformation Platform evolved from Google Apps Script automation to Airtable relational workflow model.
AI & Workflow Systems	n8n content automation engine and CreatorFlow browser automation concept show reusable workflow and AI-assisted solution thinking.

FEATURED PROJECTS

SAP BTP Solution Advisor

AI-Powered SAP BTP Recommendation Platform

Technologies: SAP Build Apps, SAP CAP concepts, SAP HANA Cloud, REST APIs, OData, Generative AI

Problem: Business teams often struggle to identify suitable SAP BTP services and implementation approaches for specific business challenges.

Solution: Designed an AI-powered solution advisor that converts business requirements into structured SAP BTP recommendations, architecture guidance, implementation roadmaps and reusable solution knowledge.

Impact: Demonstrates SAP BTP solution engineering capability, business-to-technology mapping and AI-powered enterprise advisory concepts.

Lifecycle Management Transformation Platform

Google Apps Script to Airtable Evolution

Technologies: Google Apps Script, Google Sheets, Gmail Automation, Airtable, Interfaces, Workflow Automation

Business Problem: Operational lifecycle management processes relied on spreadsheets, manual ownership tracking, repetitive coordination activities and fragmented reporting visibility.

Phase 1: Built Google Apps Script automation for requirement tracking, validation rules, automated notifications, stakeholder visibility and lifecycle governance.

Phase 2: Recognized scalability and usability limitations, then redesigned the solution using Airtable relational data modeling, role-based interfaces, workflow automations and management dashboards.

Impact: Shows solution engineering mindset: finding a real project pain point, building an initial solution, learning from limitations and evolving the platform design.

LinkedIn Content Automation Engine

Supporting Workflow Automation Project

Technologies: n8n, Google Sheets, AI Tools, Workflow Automation

Problem: Content planning, generation, formatting and publishing support required repetitive effort and manual coordination.

Solution: Built an automation workflow engine that supports structured content generation, planning, workflow execution, formatting and publishing support using reusable automation components.

Impact: Demonstrates practical workflow automation, AI-assisted content pipeline thinking and reusable automation design principles.

CreatorFlow

Currently Building — Browser Automation Platform

Technologies: Chrome Extension concepts, React, Vite, Node.js, Automation

Concept: A browser automation platform designed to observe user interactions, convert repetitive browser activities into reusable workflows, manage variables and simplify routine productivity tasks.

Current Focus: Browser action recording, workflow generation, variable management, reusable automation templates and future AI-assisted workflow optimization.

CERTIFICATIONS

- SAP Certified Associate – Integration Developer — [Credly Verification](#)
- SAP Certified Associate – Low-Code/No-Code Developer – SAP Build — [Credly Verification](#)
- SAP Certified Associate – SAP Generative AI Developer — [Credly Verification](#)

EDUCATION

B.Tech – Computer Science Engineering, Artificial Intelligence & Machine Learning | ACE Engineering College, Hyderabad | 2024

Diploma – Computer Programming | Government Institute of Electronics, Hyderabad | 2021

PORTFOLIO & CAREER DIRECTION
